

MATERIAL DESCRIPTION

Coala PP Stick S is a plasticiser free 100 micron white matt top-coated polypropylene film with a grey permanent adhesive, and protected by a moisture stable stay-flat 140gsm PE Kraft liner. Coala PP Stick S is ideal for indoor and outdoor sign and display graphics, applied on smooth surfaces. Suitable for printing with Solvent, Eco-Solvent, HP Latex and UV Inks.

PRINTER & INK COMPATIBILITY

THICKNESS

100 μ

PHYSICAL PROPERTIES

- Face film: 100 μ m polypropylene
- Finish: white matt
- Adhesive: 30 μ m permanent grey acrylic
- Adherence:
 - Loop tack / initial grab: 15N/25mm (FTM9)
 - Adhesive data 23°C peel 24H on glass: 17N/25mm (FTM1)
- Liner: 140g/m² (180 μ m) stay flat double-sided PE Kraft liner

PROCESSING

- Application temperature 10° to 40°C

APPLICATIONS

- Exhibition / Events / Trade shows
- POS / General signage
- Promotional graphics
- Indoor and Outdoor

BENEFITS

- PVC Free solution
- High quality prints
- Vibrant colour performance
- Excellent dimensional stability
- Anti-glare/even finish
- 4 year outdoor life depending on substrate

PVC
FREE

SHELF LIFE STORAGE AND CONDITIONS

- 12 months under normal conditions (+15° to +35°C at a relative humidity between 30% and 75%. Higher humidity and/or temperature can affect the product performance. Always store the media in a dark place in its original packaging.

The following technical details are issued to the best of our knowledge, however, without any responsibility for results due to several different kinds of material and application processes. Therefore, we highly recommend that before every usage a test should be conducted on the original material. Antalis cannot be responsible for any damage to the printer caused by printing our media.
