

MATERIAL DESCRIPTION

Coala Re-Stick is a 75µ white polymeric vinyl, developed for easy application and removal of vibrant graphic to a wide range of substrates. Coala Re-Stick has a low tack technology that is repositionable and can be removed and reapplied numerous times without losing tack. With Coala Re-Stick, there is no need to worry about surface damage during graphic removal. Coala Re-Stick is available in gloss and matt finish.

PRINTER & INK COMPATIBILITY

FILM THICKNESS

PRODUCT STRUCTURE

- Fabric: 75µ white polymeric PVC (gloss or matt)
- Adhesive layer: 18µ ultra removable
- Release liner: 1 side siliconized PE coated kraft paper

PRODUCT CHARACTERISTICS

- Outdoor durability: 5 years
- Removability: 2 years
- Application temperature: > 5°C
- Service temperature range: 5°C to 48°C

APPLICATIONS

- Ideal for removable wall decals, appliques and wall murals
- Suitable for use on most indoor surfaces, painted walls, melamine, glass, and low surface energy substrates

BENEFITS

- Removal of graphics will not damage surface areas
- Phthalate free

SHELF LIFE STORAGE AND CONDITIONS

- Store in closed original packaging in a cool, dry environment 15-22°C with 50%-55% relative humidity.
- Shelf life of 2 years if stored in original packaging in recommended conditions

The following technical details are issued to the best of our knowledge, however, without any responsibility for results due to several different kinds of material and application processes. Therefore, we highly recommend that before every usage a test should be conducted on the original material. Antalis cannot be responsible for any damage to the printer caused by printing our media.
