

OFFSET

The Original recycled paper

Cyclus Offset is a recycled natural white uncoated paper with its very own character. Cyclus is made from 100% recycled pulp, which **reduces water consumption and also uses considerably less energy** compared to virgin fibers paper. Cyclus Offset is **an hybrid product** and run perfectly for both offset and preprint applications. By choosing **Cyclus Offset**, you can visibly show your environmental commitments without compromising the visual quality of your work.
